SILVERTOP ASH
PREMIER DECKING™

Why Pentarch Forestry's Silvertop Ash Decking?

Pentarch Forestry decking is manufactured from Australian hardwood species that have proven durability in Australian conditions.

- Pentarch Forestry Silvertop Ash decking is pale brown in colour and sometimes displays pinkish tones.
- Silvertop Ash is a strong, and moderately durable timber with many applications and is non susceptible to Lyctus Borer.
- Pentarch Forestry Silvertop Ash Decking is naturally fire resistant and suitable for use in BAL 29 areas under Australian Standard AS 3959.
- Recommended for use with F27 structural timber to complete your outdoor timber requirements such as bearers and joists, stair components, and exposed external beams.
- Australian Hardwoods can easily be finished with a clear Decking oil or stain. Alternatively the timber can be left to weather to turn an attractive silver grey. After timber has weathered it can be restored to its original colour by resanding and coating.
- Pentarch Forestry solid hardwood products have full chain of custody certification which meets the Responsible Wood Standard AS 4707.

Applications

Decking

- Decks
- Screening
- Fences
- Gates
- Seating

Standard Sizing

Decking

90 x 22mm, 134 x 22mm

Grades

Standard and Better

Lengths

Random lengths 1500mm - 5700mm

Technical Specification

| Properties | Silvertop Ash |
|--------------------------------------|---------------------|
| Natural Durability Class of Hardwood | Above Ground Dura 2 |
| Strength Group Seasoned | SD3 |
| Hardness Seasoned | Janka (kN) 9.7 |

Note: Variations within a timber species are normal, therefore photographs, samples and displays can only be indicative of colour and should not be used for final selection. It is normal for natural timber products to react to changes in atmospheric and environmental conditions such as humidity and temperature.
