BLACKBUTT
PREMIER DECKING™

Why Pentarch Forestry's Blackbutt Decking?

Pentarch Forestry Blackbutt Decking is manufactured from Australian Coastal Blackbutt that has proven durability in Australian conditions.

- Blackbutt is renowned for its strength and versatility, is non susceptible to Lyctus Borer, naturally termite resistant and treatment free*.
- Pentarch Forestry Blackbutt Decking is naturally fire resistant and suitable for use in BAL 29 areas under Australian Standard AS3959.
- Recommended for use with F27 structural timber to complete your outdoor timber requirements such as bearers and joists, stair components, and exposed external beams.
- Blackbutt can be used for internal flooring and outdoor Decking, to provide a seamless transition from inside to outside, expanding living areas or to create an outdoor room.
- Australian Hardwoods can easily be finished with a clear Decking oil or stain. Alternatively the timber can be left to weather to turn an attractive silver grey. After timber has weathered it can be restored to its original colour by resanding and coating.
- Pentarch Forestry solid hardwood products have full chain of custody certification which meets the Responsible Wood Standard AS 4707.

Reference: Australian Standard AS1648.2 - 2006.

Applications

Decking

- Decks
- Screening
- Fences
- Gates
- Seating

Commercial Decking

- Boardwalks
- Pedestrian and Light Vehicle Bridges
- Loading Docks
- Grandstands

Standard Sizing

Decking

64 x 19mm, 86 x 19mm and 130 x 19mm

Commercial Decking

135 x 32mm

Grades

Standard and Better

Lengths

Random Lengths 1500mm - 5700mm

Technical Specification

Properties	Blackbutt
Natural Durability Class of Hardwood	Above Ground Dura 1
Strength Group Seasoned	SD2
Hardness Seasoned	Janka (kN) 8.9
Naturally Termite Resistant	Yes

Responsible Wood[®]
