AUSTRALIAN
BEECH™
DECKING

AUSTRALIAN BEECH™

DECKING

Australian Beech™ is a curated blend of light-coloured Australian eucalypts developed to achieve a consistent blonde-to-honey tone with a clean, contemporary grain. With its soft palette ranging from pale straw and light brown through to mid golden and nutty brown tones, Australian Beech supports bright, contemporary exterior spaces while delivering the durability and performance of Australian hardwood.

Australian Beech™ can be a more economical pathway to achieve a light-coloured deck without relying on a single premium species.

Product Specifications

- **Profile:** Decking dressed all sides with 4 pencil-round edges
- **Board Sizes:** 86 x 19mm and 130 x 19mm
- **Janka Hardness:** Approx. 8.0 kN

Grades Available

Premier Grade

- Minimal to moderate natural feature
- Selected to limit prominent feature, helping deliver a premium, contemporary appearance across large areas

Important Note: Durability and compliance requirements for decking vary by state - confirm suitability including durability class and bushfire requirements where applicable prior to specification. Building codes, the product installation guide and Australian Standards should be adhered to when building with Pentarch Forestry Decking

Sustainably Grown. Australian Made.

Note: Variations within a timber species are normal, therefore photographs, samples and displays can only be indicative of colour and should not be used for final selection. It is normal for natural timber products to react to changes in atmospheric and environmental conditions such as humidity and temperature.
